

Survey Questions

The survey questions are designed to determine how valuable and actionable Cellworks reports are for therapy selection

Physician Survey

The following novel questions will be administered on the physician survey following receipt of the Cellworks report.

Response Options:

- Strongly Disagree
- Disagree
- Slightly Disagree
- Slightly Agree
- Agree
- Strongly Agree

1. There was useful information in the Cellworks report beyond the information that was in the patient's next generation sequencing (NGS) report.
2. The information in the Cellworks report provided a therapeutic recommendation that the MTB or physician wouldn't have made based on the patient's NGS report alone.
3. The MTB or physician used the information in the Cellworks report to inform therapeutic recommendations for the patient.
4. Based on the Cellworks report, the physician changed their mind regarding therapy selection.
5. The Cellworks report was easy to understand.
6. Cellworks report was received in a reasonable timeframe.
7. Would use a Cellworks report again.
8. Would recommend a Cellworks report.
9. Please indicate what therapy the patient received. (text field)
10. Please provide any additional feedback you have on the report. (text field)
